

utf8::utf16to8

utf8::unchecked::utf16to8

utf8::internal::is
_lead_surrogate

```
graph LR; A[utf8::utf16to8] --> C[utf8::internal::is_lead_surrogate]; B[utf8::unchecked::utf16to8] --> C;
```

The diagram illustrates a dependency or relationship between three code elements. On the left, two white rectangular boxes with black borders contain the text 'utf8::utf16to8' (top) and 'utf8::unchecked::utf16to8' (bottom). On the right, a gray rectangular box with a black border contains the text 'utf8::internal::is_lead_surrogate'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both functions on the left depend on or interact with the 'is_lead_surrogate' function on the right.
